

*Do you have visibility issues?*

*If you are not monitoring your entire telecom infrastructure with a single server, then its time to upgrade!*

*Trapserver™ - improves business & lowers costs!*

- Monitors crucial payload bearing data circuits; SCADA, public safety, customer traffic, and switched phone networks.
- Concentrate and consolidate faults on a single server.

*"We future proof your monitoring network!"*

**SchoRen** is a leading provider of low cost telecommunications equipment monitoring servers.
